ILWU-PMA Pension Plan
ILWU-PMA Welfare Plan

ILWU-PMA Watchmen Pension Plan

Date July 19, 2016

To: ILWU Longshore, Ship Clerk, Walking Boss/Foreman, and Watchmen Locals

From: Mario Perez, Manager, Welfare Plans

Subject: ILWU-PMA Coastwise Indemnity Plan – Compound Drugs

The attached letter will be sent out to members enrolled in the ILWU-PMA Coastwise Indemnity Plan. The letter explains the process for obtaining compound drugs, effective August 22, 2016.

Attachment

ILWU-PMA Pension Plan
ILWU-PMA Welfare Plan

ILWU-PMA Watchmen Pension Plan

July 2016

Important Notice
Regarding Your ILWU-PMA Welfare Plan coverage

**To: Participants Enrolled in the ILWU-PMA Coastwise Indemnity Plan (CIP)
Prescription Drug Program**

**Subject: ILWU-PMA Coastwise Indemnity Plan Compounding Drug Portion of the
Prescription Drug Program**

This is to advise you that effective August 22, 2016, the compounding drug portion of the Prescription Drug Program under the ILWU-PMA Coastwise Indemnity Plan (CIP) will only cover compounded drugs that, in addition to other Plan terms are dispensed by an OptumRx Compound Credentialed Pharmacy.

In addition, the compounding drug portion of the Prescription Drug Program will no longer include bulk chemicals on the OptumRx list of excluded bulk chemicals (see attached OptumRx Compound Medication Exclusions list).

Compound prescriptions that cost more than \$1,000 will continue to require prior authorization.

Bulk chemicals are sometimes used by pharmacies to make compound prescriptions. Many bulk chemical products are not FDA-approved or are available in alternate forms. Other bulk chemicals have FDA-approved formulations thereby minimizing the need for compounding these ingredients.

Effective August 22, 2016, participants will have to pay out-of-pocket for prescription compound drugs that contain non-covered bulk chemicals or that are filled by a compound pharmacy that is not credentialed by OptumRx.

WHAT IS A COMPOUND DRUG?

Compound drugs require a prescription from a doctor and are prepared by a pharmacist who mixes or adjusts drug ingredients to customize a medication to meet a patient's individual needs. Due to concerns about member safety and drug effectiveness the requirements listed above are being implemented.

OPTUM RX CREDENTIALLED PHARMACY

If your compound pharmacy is not on the current Credentialed Pharmacies Listing attached, your compound prescription will not be covered. Please talk to your physician and transfer your prescription to a credentialed pharmacy on the attached Credentialed Pharmacies Listing. You may not see a pharmacy near you (or even in your state of residence) listed, however the credentialed pharmacies listed are licensed to dispense and ship compound medications to you.

(Over)

Note that the list is subject to change. Please refer to www.benefitplans.org/compoundingpharmacies.html for the current list of credentialed compound pharmacies, or for pharmacies outside the states of California, Oregon and Washington. You may also contact the ILWU-PMA Benefit Plans Office at (415) 673-8500.

PRIOR-AUTHORIZATION OF COMPOUND PRESCRIPTIONS

If the compound drug you are being prescribed will cost more than \$1,000 per prescription you must have the prescription prior-authorized. To request a prior-authorization your doctor and/or pharmacy can:

- Call OptumRx at the toll-free number on the back of your OptumRx ID card
- FAX a completed prior-authorization form available on OptumRx.com to OptumRx
- Submit the information through the online provider portal at OptumRx.com

After OptumRx receives the request, they will notify you, your doctor, and/or your pharmacy to let you know if the medication is covered under your pharmacy benefit plan. If coverage of the compound medication is not approved you can still get the medication, but you will pay the full cost of the prescription.

If you have any questions regarding coverage for benefits provided by OptumRx, please contact the ILWU-PMA Benefit Plans Office at 415-673-8500.

Each page provides a list of the pharmacies credentialed and licensed to dispense within that state. Symbols next to the pharmacies are provided for reference for some of the more routine types of compounded products. If your type of product is not listed, or if you are unsure of the type of compounded product you are filling; the pharmacies listed should be able to answer your questions based on the prescriptions and direct you appropriately as to their ability to compound the product.

How to find a pharmacy that dispenses a specific type of compound medication

The abbreviations below represent routine types of compounds. Not all pharmacies are credentialed to dispense all types of compounds.

The charts on each page will let you know which pharmacy may be able to compound the medication you need. (For example if the prescription appears to be for a topical product look for the TOP symbol after the pharmacies within your state.)

- **TOP:** denotes topical products (e.g. pain ointments/gels and topical hormone creams)
- **HRT:** denotes hormone replacement therapy and fertility medications (e.g. estriol)
- **PED:** denotes pediatric (children) custom products (e.g. liquid g-tube preparations)
- **NAS:** denotes nasal or oral inhaled therapies (e.g. antibiotic or steroid nasal compounds)
- **STR:** denotes sterile Preparations (e.g. IV, IM, SC and Epidural injections, Ophthalmic preparations and fortified antibiotic/antifungal drops)
- **SUP:** denotes Supplements (e.g. Enzymes, EFA's, Vitamin A/C/D and Calcium)
- **PTD:** denotes Medicare Part D (e.g. a compound claim for a Medicare Part D beneficiary)

Please Note: You may not see a pharmacy near you (or even in your state of residence) listed, however the NCCP pharmacies listed for each state are licensed to dispense and ship compound medications to that state.

Not all NCCP pharmacies participate in all networks.

Please verify the compound credentialed pharmacy participates in your Plan's network.
